

## Plan Winter Events and Prepare with Contingencies (because we all know snow doesn't happen on a schedule)

### No More Re-Entering Spreadsheet Data

- Organize how you run your business
- Configure crew pay
- Determine billing methods
- Accurate material usage planning
- Compare previous contracts & proposals to current; discover trends

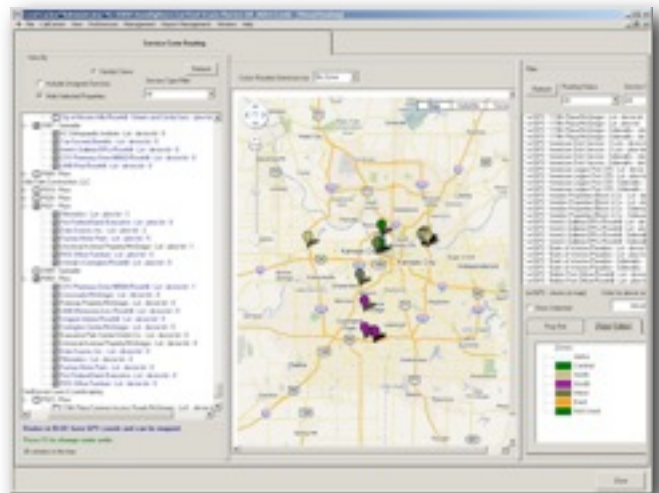

### Enter and Store all your information in one place

- Crews and their contact information
- Property and the manager's contact information
- Contract information
- Equipment types
- Service types
- Financials stay safe on your computer, not floating around on the internet

Don't get caught without enough salt,  
accurately estimate material usage by looking  
at previous years!

### Easily Create Your Master Snow Plan

- Visually group properties for a crew within a geographic area. optimizing each crew with the most efficient route.
- Use the Visual Routing to optimize your routes for the highest efficiency possible.
- Built in contingency plan

## Route Sheet Plan

	2259	2	1789	P029	Ultra Safe Construction, LLC	Grass Lot	1
<b>American Dish Service</b>							
	2758	1	1843	S014	West Lawn & Landscap	Grass Lot	0
	2805	1	2403	W001	Advanced Decking Concepts, Inc. (Brenar	Clear Sidewalks	0

Route sheets go with crews so that they know what they're doing

This route sheet can also be viewed on the web portal.

Change routes as needed on the Visual Route screen, it automatically updates the route sheets
